of the Cabinet Officiats Said No Attention Would He Paid to the Project. The \$3,000,000 Will Be Withdrawn, II Not Taken Seen.

WASHINGTON, April 3 .- C. M. Coen. who it was alleged was engineering the scheme for a \$20,000,000 loan issue to the Cuban assembly, and was said to be the author of the mysterious dispatches to the Cuban assembly, urging that body not to disband on the ground of a good prospect of securing more than the \$3,000,000 offered by the United States, was in Washington and was in conference with a Mr. Rosenfeldt. He admitted that he was the man who had been working on the plan to establish a \$29,000,000 bond issue to be paid for out of the Cuban revenues now collected by the United States. He said he represented a syndicate with \$20,000,000 capital which intended to place the loan.

It was stated by some of the cabinet

officials that if too much trouble and de liberate delay occurs preliminary to the \$3,000,000 being turned over to the Cubans, the money may be withdrawn and no payment of any sort be made by this government on account of the Cuban troops. No proposition for an additional sum will be considered in any form and the statement to that effect by Secretary Hay in the unofficial interview with the two delegates from the assembly will stand. It was also stated by some of the cabinet officials that no attention would be paid to the project for authorizing a Cuban loan.

names of his accusers.

It is true that the statutes allow only three days' detention incommunicado. but a judge, under the practice that has grown up, may make a new com-mitment at the expiration of the third day, another at the expiration of the sixth and so on without limit.

More than this, the evidence in crini inal causes is taken by clerks, who for a ousideration write into the testimony hings never uttered, thus often making the best friends of the accused appear to condemn him. While there is disappointment because the movement for the capture of a large force of Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place, has had a very discouragng effect upon the natives who have been following Aguinaldo,
